

**CHANG, Maiga**

Athabasca University, Canada

Selected Scholarly Contributions [Data Provided by **SCOPUS**]

[Effects of improvement on selective attention: Developing appropriate somatosensory video game interventions for institutional-dwelling elderly with disabilities](#)

(2012) Turkish Online Journal of Educational Technology, 11 (4), pp. 409-417.

[A personalized webpage reconstructor based on concept lattice and association rules](#)

(2011) Journal of Internet Technology, 12 (6), pp. 1015-1024.

[Issues of designing educational multimedia metadata set based on educational features and needs](#)

(2011) Journal of Internet Technology, 12 (5), pp. 685-698.

[Next-stop recommendation to travelers according to their sequential wandering behaviors](#)

(2011) Journal of Internet Technology, 12 (1), pp. 171-179.

[Usability of context-aware mobile educational game](#)

(2011) Knowledge Management and E-Learning, 3 (3), pp. 448-477.

[National program for e-Learning in Taiwan](#)

(2009) Educational Technology and Society, 12 (1), pp. 5-17.

[Designing a decompositional rule extraction algorithm for neural networks with bound decomposition tree](#)

(2008) Neural Computing and Applications, 17 (3), pp. 297-309.

[Context-aware learning path planner](#)

(2008) WSEAS Transactions on Computers, 7 (4), pp. 316-325.

[Providing students hints and detecting mistakes made by students in a virtual experiment environment](#)

(2008) IEEE Transactions on Education, 51 (1), pp. 61-68.

[Diagnosis mechanism and feedback system to accomplish the full-loop learning architecture](#)

(2008) Educational Technology and Society, 11 (1), pp. 29-44.

[Sending the most appropriate feedbacks to students](#)

(2007) WSEAS Transactions on Information Science and Applications, 4 (3), pp. 584-591.

[Quantitative and qualitative results of the national program for e-learning in Taiwan](#)

(2007) WSEAS Transactions on Computers, 6 (3), pp. 546-551.

[Using internet technology to make students learning better in video/audio design course](#)

(2007) WSEAS Transactions on Computers, 6 (3), pp. 433-440.

[Applying knowledge map to diagnose students' misconception and provide suitable teaching materials](#)

(2006) WSEAS Transactions on Computers, 5 (1), pp. 133-140.

[Unsupervised knowledge navigation: Reconstructing the hypermedia structure of instructional materials on world wide web](#)

(2005) WSEAS Transactions on Information Science and Applications, 2 (10), pp. 1505-1513.

[Analyzing problem's difficulty based on neural networks and knowledge map](#)

(2004) Educational Technology and Society, 7 (2), pp. 42-50.
