

**LEE, Stephen Sauchi**  
University of Idaho, USA

Selected Scholarly Contributions [Data Provided by **SCOPUS**]

[Construction of genomic regulatory encyclopedias: Strategies and case studies](#)

*OCCBIO'09: 2009 Ohio Collaborative Conference on Bioinformatics*, art. no. 5159164, pp. 65-70, 2009.

[The word landscape of the non-coding segments of the Arabidopsis thaliana genome](#)

*BMC Genomics*, 10, art. no. 1471, p. 463, 2009.

[Word-based characterization of promoters involved in human DNA repair pathways](#)

*BMC Genomics*, 10 (SUPPL. 1), art. no. S18, 2009.

[Lipid A mimetics are potent adjuvants for an intranasal pneumonic plague vaccine](#)

*Vaccine*, 26 (44), pp. 5554-5561, 2008.

[Induction of innate immunity by lipid A mimetics increases survival from pneumonic plague](#)

*Microbiology*, 154 (7), pp. 2131-2138, 2008.

[The effect of rebalancing on the performance of a group key agreement protocol](#)

*Proceedings - Conference on Local Computer Networks, LCN*, art. no. 4116689, pp. 983-989, 2006.

[Exploring average performance of group key management algorithms over multiple operations](#)

*Proceedings of the Fourth IASTED International Conference on Communications, Internet, and Information Technology, CIIT 2005*, pp. 47-52, 2005.

[Simulating the effect of landscape size and age structure on cavity tree density using a resampling technique](#)

*Forest Science*, 50 (5), pp. 603-609, 2004.

[Noisy replication in skewed binary classification](#)

*Computational Statistics and Data Analysis*, 34 (2), pp. 165-191, 2000.
