

**THULASIRAMAN, Parimala**  
**University of Manitoba, Canada**

Scholarly Contributions [Data Provided by **SCOPUS**]

Rahman, R.M., Thulasiram, R.K., Thulasiraman, P.

[Performance analysis of sequential and parallel neural network algorithm for stock price forecasting](#)  
(2011) International Journal of Grid and High Performance Computing, 3 (1), pp. 45-68.

Niknam, M., Thulasiraman, P., Camorlinga, S.

[A parallel algorithm for connected component labelling of gray-scale images on homogeneous multicore architectures](#)  
(2010) Journal of Physics: Conference Series, 256 (1), art. no. 012010, .

Solomon, S., Thulasiraman, P.

[Mapping the MPM maximum flow algorithm on GPUs](#)  
(2010) Journal of Physics: Conference Series, 256 (1), art. no. 012006, .

Wang, J., Osagie, E., Thulasiraman, P., Thulasiram, R.K.

[HOPNET: A hybrid ant colony optimization routing algorithm for mobile ad hoc network](#)  
(2009) Ad Hoc Networks, 7 (4), pp. 690-705.

Kumar, S., Thulasiram, R.K., Thulasiraman, P.

[Ant colony optimization for option pricing](#)  
(2009) Studies in Computational Intelligence, 185, pp. 51-73.

Kola, K., Thulasiram, R.K., Thulasiraman, P.

[A software architecture framework for on-line option pricing](#)  
(2009) Journal of Supercomputing, 47 (2), pp. 146-170.

Palit, R., Hossain, E., Thulasiraman, P.

[MAPLE: A framework for mobility-aware pro-active low energy clustering in ad hoc mobile wireless networks](#)  
(2006) Wireless Communications and Mobile Computing, 6 (6), pp. 773-789.

Thulasiraman, P., Khokhar, A.A., Heber, G., Gao, G.R.

[A fine-grain load-adaptive algorithm of the 2D discrete wavelet transform for multithreaded architectures](#)  
(2004) Journal of Parallel and Distributed Computing, 64 (1), pp. 68-78.

Abraham, S., Barua, S., Thulasiraman, P., Thulasiram, R.K.

[A Distributed Implementation of Fast Fourier Transform on Indirect Swap Networks](#)  
(2003) Canadian Conference on Electrical and Computer Engineering, 2, pp. 1147-1150.

Thulasiram, R.K., Thulasiraman, P.

[Performance evaluation of a multithreaded fast Fourier transform algorithm for derivative pricing](#)  
(2003) Journal of Supercomputing, 26 (1), pp. 43-58.
